

STATES OF MATTER

SOLIDS

The wood block is solid. A solid has a certain size and shape. The wood block does not change size or shape. A solid holds its shape.

LIQUIDS

Liquids have a size or volume. Volume means it takes up space. But liquids don't have a definite shape. It takes the shape of its container.

GASES

A gas is matter that has no shape or size of its own. Gases have no color. Gases are all around you. You can feel gas when the wind blows. Air is many gases mixed together.
